The Civitan Foundation, Inc. is proud to announce the opening of three exciting new programs. Our programs are designed to provide an interactive and enriching environment for our participants. Our staff seeks out exceptional locations within our community to provide both education and entertainment; various museums, galleries, interesting stores, television stations, and fire stations to name a few.

We also provide opportunities throughout the month for our participants to volunteer in various nursing homes, food banks, hospitals, and libraries. Civitan participants will set personal goals to volunteer in their local communities and will have the opportunity to experience the guiding principle of our program, "community helping community." If there are any projects we can help you with, please give us a call!

In addition to building necessary life skills, participants will have the opportunity to experience the many unique attractions the Valley has to offer. Our creative and dedicated staff work to ensure that our programs are continually engaging, as well as educational. It is this passion which propels our programs beyond the ordinary.

Exclusive "VOLUNTEER EXPLORATION PROGRAM"
